Do double click the following icon to download the Excel Template.

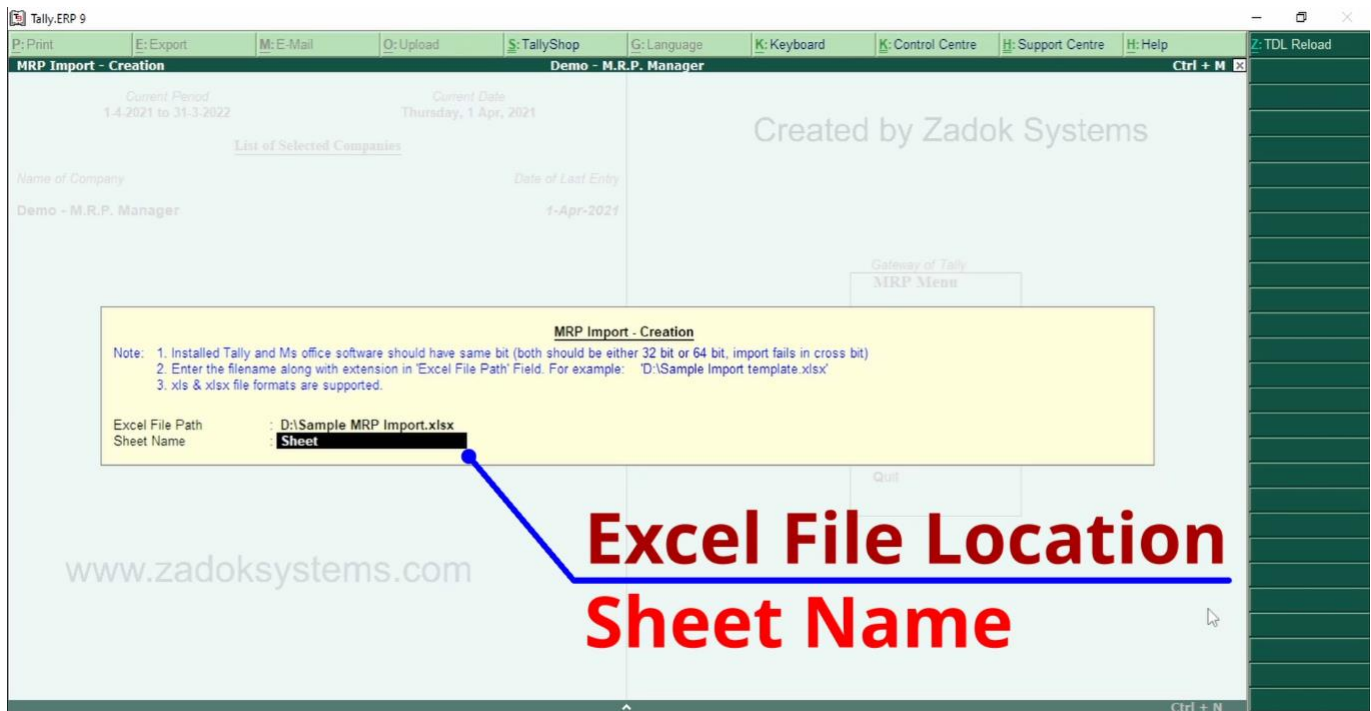

Sample MRP Import
template.xlsx

1. **Creation of MRP through Ms Excel**

Click on "Create MRP", Enter the Excel File Path and Sheet Name as follows and accept the screen to perform import.

One the import is done, a log file pops up. User can verify whether all the items have been imported or not. If not, do check the error shown in log file, rectify the issues in excel file and perform the import again.

Note:

➢ *The Column orders should be maintain as given in sample excel file.*

➢ *User can use Alias or Part no instead of Stock item name and perform import.*
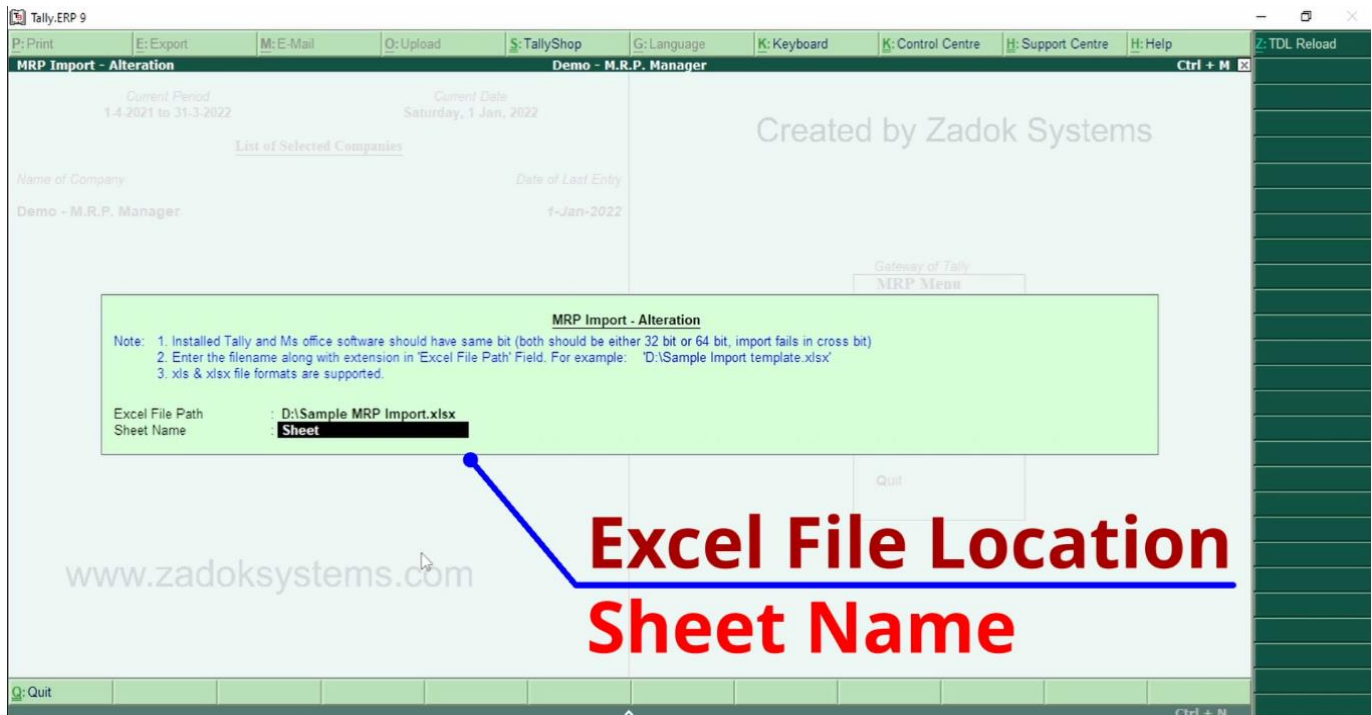

2. Alteration/Modification of MRP through Ms Excel

Click on "Alter MRP", Enter the Excel File Path and Sheet Name as follows and accept the screen to perform import.

One the import is done, a log file pops up. User can verify whether all the items have been imported or not. If not, do check the error shown in log file, rectify the issues in excel file and perform the import again.

Note:

➢ *Alteration means, modifying the lastly created or any previously created MRP*

3. MRP Report

Click on "MRP Report". By default the latest MRP will be displayed for all Stock items.

Note:

➢ *Report can be exported in Excel format and do update the MRP details then the same file can be used to perform import.*

➢ *User can use Alias or Part no instead of Stock item name and perform import.*

Reports can be filtered by following Keys

1. *Show the History of Std. Price & Cost (**Alt+F1**)*

2. *Stock Item (**F4**)*

3. *Stock Group (**F5**)*

4. *Stock Category (**F6**)*

5. *Show All Items (**F7**) (Displays all Stock items, with and without Std. Price & Cost)*

6. *Show Part No. (**F8**)*

7. *Alter Stock Item master (**Enter**)*

(Print, Email, Export, Upload options will be available only in licensed version)
